INTRODUCTION

What is Nintendo Switch?

The **Nintendo Switch** is a video game console developed by **Nintendo**, released worldwide in most regions on March 3, 2017. It is a hybrid console that can be used as a home console and portable device. The **Nintendo Switch's** design is aimed at a wide demographic of video game players through multiple modes of use.

About the Project

Talking about the Project that we have made is basically a Website for the Nintendo Switch. It contains all the necessary information about the Nintendo Switch , i.e , the Hardware Overview of Nintendo Switch regarding how to use the Nintendo Switch , how to use Nintendo Switch in TV Mode or in Handheld mode , how to charge the Nintendo Switch , how to connect Nintendo Switch to Wi-Fi , how to play in the Multiplayer mode , how to use Joy-Con , i.e , the game controllers for Nintendo Switch , etc.

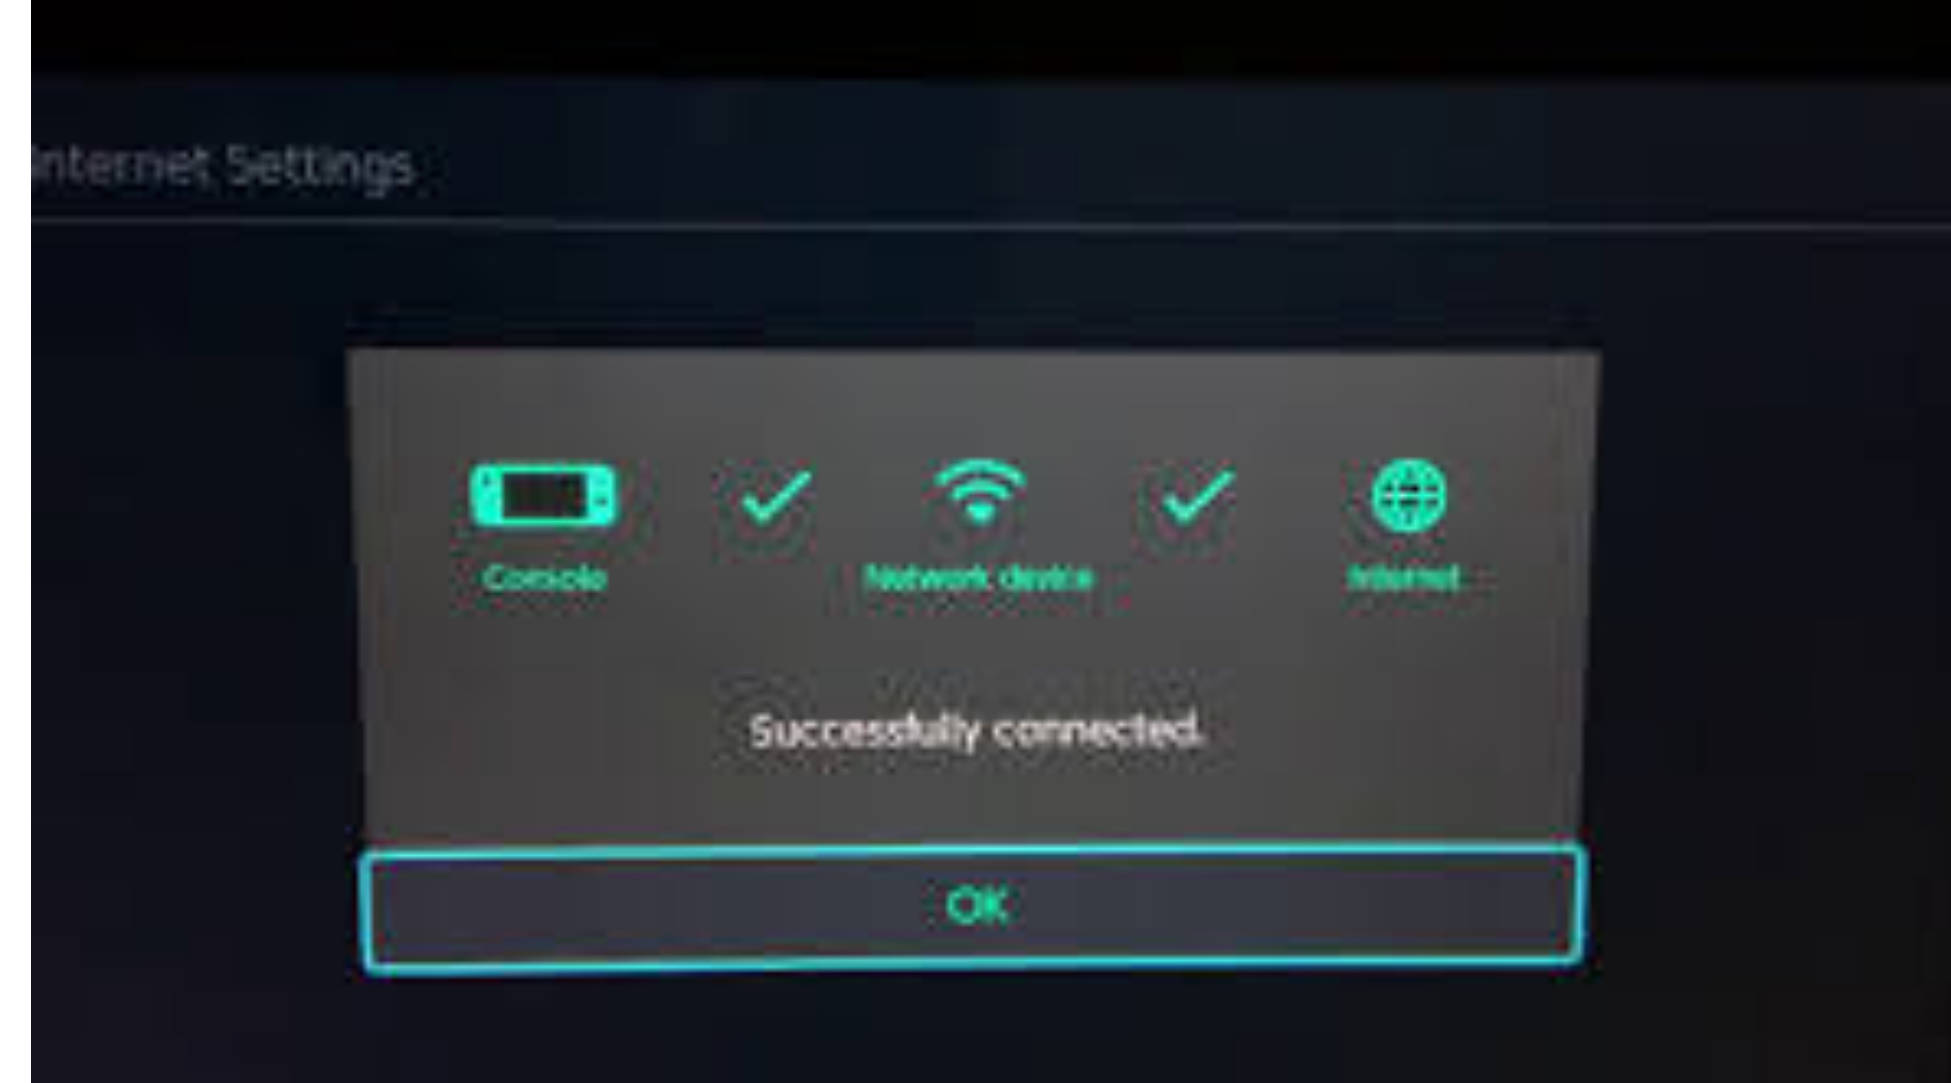

Using Nintendo Switch in TV Mode

Using Nintendo Switch in Handheld Mode

Charging the Nintendo Switch

Connecting Nintendo Switch to Wi-Fi

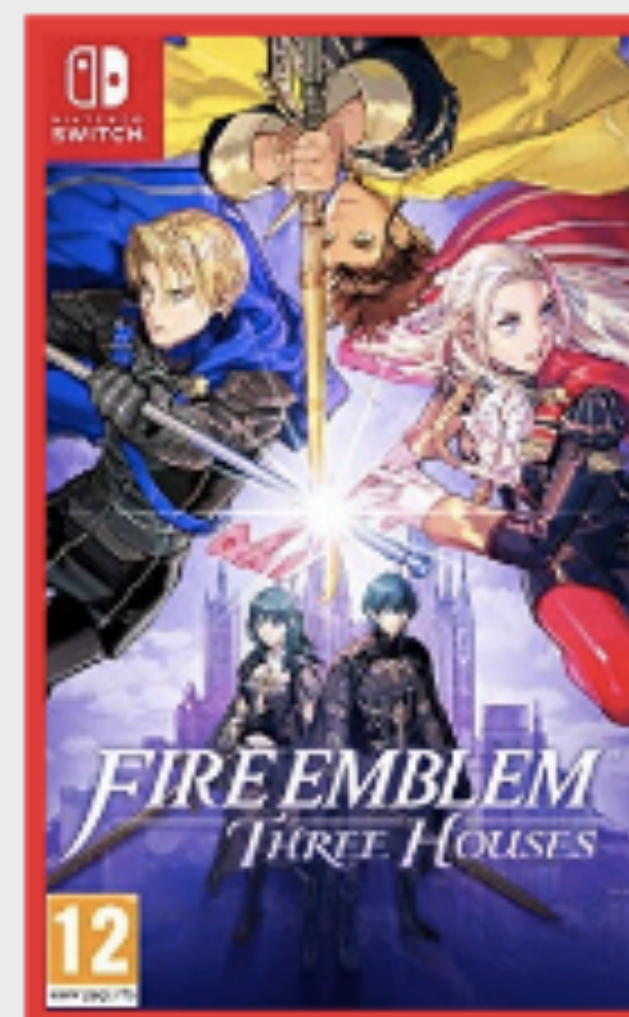

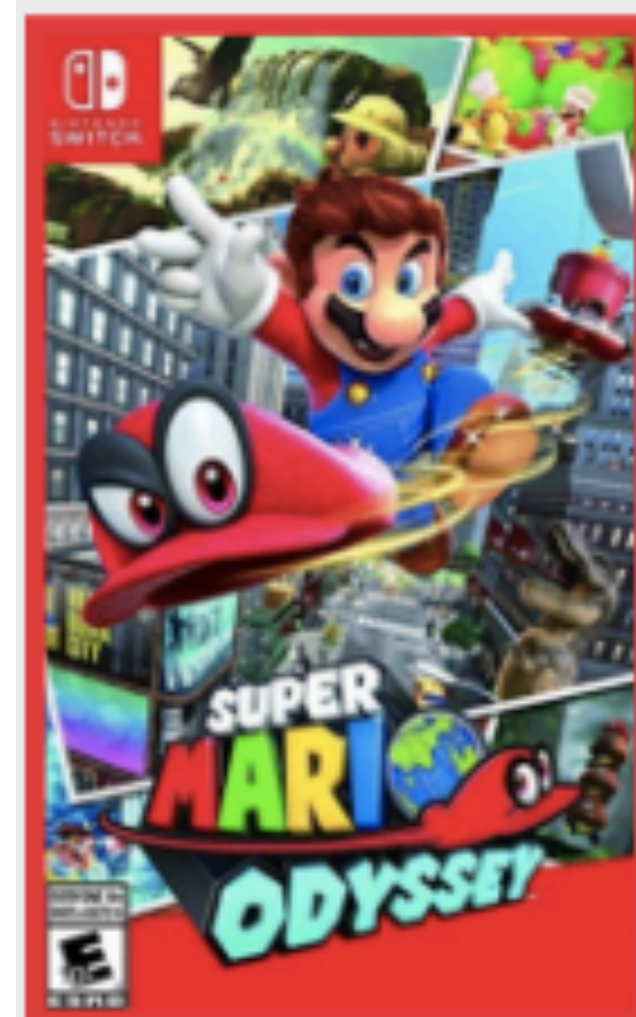

Playing in Multiplayer Mode in Nintendo Switch

Using the Joy-Con

After that there is the mention about the games (jeux) that are available for Nintendo Switch which are as follow:

The website also covers the technical specifications about the Nintendo Switch

Dimensions	Approximativement 9,4 pouces de largeur, 4 pouces de hauteur, 0,55 pouces de profondeur
Poids	Approximativement 0,66 lbs seul, 0,88 lbs avec manettes Joy-Cons
Écran	Écran tactile capacitif multi-touch / LCD 6,2 puces / 1280 x 720
CPU/GPU	Processeur NVIDIA Tegra X1 modifié
Stockage	32 GB interne, compatibilité microSD jusqu'à 2 TB
Vidéo	720p en mode portable, jusqu'à 1080p en mode TV >
Batterie	Batterie lithium-ion/ 4310 mAh Approximativement 4,5-9 heures * La durée peut varier selon le jeu

And at the last, the option for buying (Acheter) different types of Nintendo Switch is also made available for the Customers

	<p>Description:</p> <p>Nintendo Switch avec Joy-Con™bleu fluo et rouge fluo</p> <p>L'ensemble comprend la Nintendo Switch, la station d'accueil, ainsi que les manettes rouge et bleue</p> <p>399,99\$</p>
	<p>Description:</p> <p>Nintendo Switch avec deux Joy-Con™gris</p> <p>L'ensemble comprend la Nintendo Switch, la station d'accueil, ainsi que les manettes grises.</p> <p>399,99</p>
	<p>Description:</p> <p>Manette Nintendo Switch Pro</p> <p>Inclut la manette Nintendo Switch Pro</p> <p>89,99\$</p>

What we have used?

- We have used HTML and External CSS for developing and designing this website project.
- Moreover , all the hyperlinks , i.e , Jeux , Spécifications and Acheter are also linked to one another.
- The website that we have developed in this project is basically a static website because while developing this website , we did not use any databases , validations (JavaScript) and the content for this website is also fixed.

What went well?

- We were able to properly implement the design and the layout that was specified in the prototype.
- We were also able to properly align the images to one another as specified in the prototype.
- We did not find any problem in finding the images from the web that were to be used in the project
- Videos were also embedded well within the website.
- The hyperlinks were able to be linked well to one another.

THE END
